

BOOK PLAQUE - SINGLE CASTING

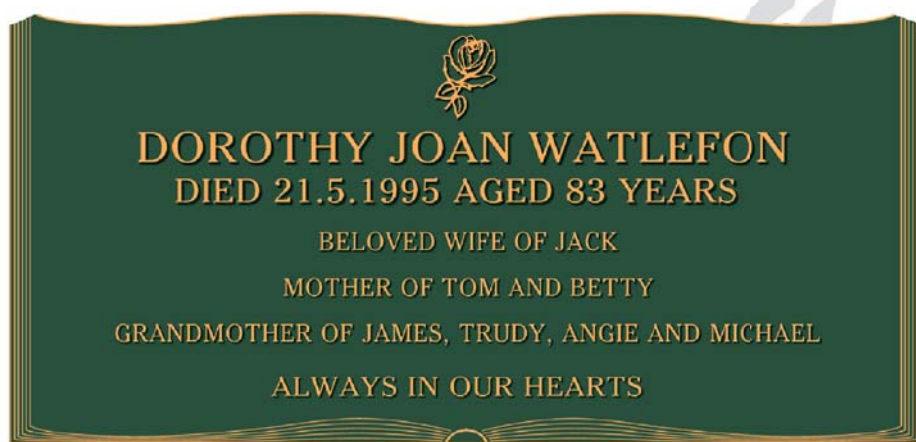

Phoenix book plaques are bronze memorials for partners in the form of a book which cater for any time difference between the passing of each partner.

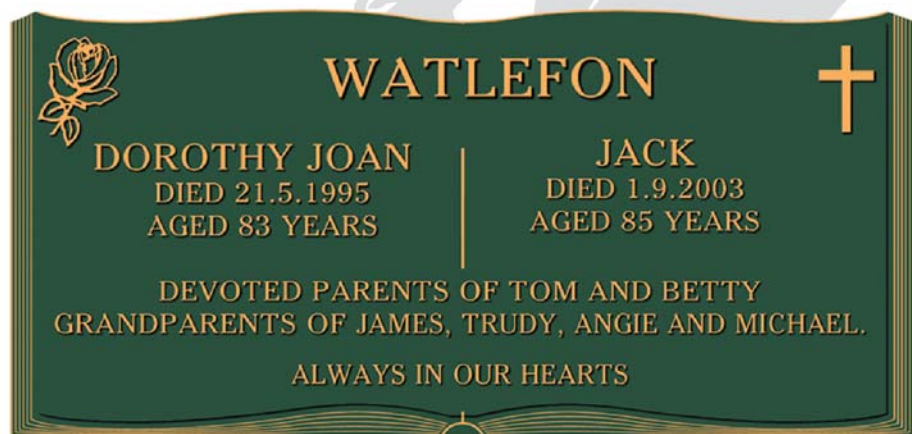

The Single Casting Book Plaque is a simple concept which has some advantages over book plaques with replaceable pages.

- > Simplicity in design and ordering;
- > No difference in appearance between first and second interments;
- > Possibility of revising or updating the inscription at the time of the second interment as a completely new plaque is purchased;
- > Greater flexibility in designing the plaque layout.
